ABOUT US

WHO WE ARE

ABOUT ÔSI

BUILT FOR THE NORTH

Ôsi Energy Services Ltd. is a civil earthworks and site services contractor based in Canoe Narrows, Saskatchewan, working in partnership with Canoe Lake Cree First Nation. We work year-round for energy, forestry, industrial and municipal clients across Saskatchewan and Western Canada.

Our first commitment is zero harm to people and the environment. After that, it's simple: do good work, on schedule, at a fair price.

OUR PARTNER

CANOE LAKE CREE FIRST NATION

HISTORY

Canoe Lake Cree First Nation is a Cree community in northern Saskatchewan. The Nation signed Treaty 10 on September 19, 1906, with Chief John Iron, Headman Baptiste Iron and Headman Jerome Couillonneur signing for the Nation. Cree families have lived on this land for generations, hunting, trapping and fishing.

THE COMMUNITY TODAY

Commercial fishing was once the main industry, until it declined in the late 1970s. Forestry, hunting, trapping, lumber and handicrafts are still part of the local economy. The community has a school, arena, band office, café, service station and recreation facilities.

OUR PARTNERSHIP

Ôsi is based in Canoe Narrows and works in partnership with Canoe Lake Cree First Nation.

WHY "ÔSI"?

ÔSI IS A CREE WORD FOR CANOE.

For generations, the canoe carried people across lakes like Canoe Lake to traplines, fishing spots and neighbouring communities. Our name is a nod to that history and to the work we do: carrying the load across the north.

Partner Nation: Canoe Lake Cree First Nation
Member of Meadow Lake Tribal Council

WHY A NORTHERN CONTRACTOR

- A local contractor for northern Saskatchewan work
- Crews who know northern access, terrain and weather
- Year-round work, including winter roads and freeze-down
- Offices in Canoe Narrows and Lloydminster

WHAT WE DO

OUR SERVICES

THE PEOPLE BEHIND THE WORK

OUR TEAM

PARTNER NATION

CANOE LAKE CREE FIRST NATION

Ôsi is based in Canoe Narrows and works in partnership with Canoe Lake Cree First Nation, in Treaty 10 territory.

VICE PRESIDENT

FRANCOIS NAUDE

Francois leads operations, project coordination, equipment readiness and business development. He has hands-on experience in field operations and equipment management.

GENERAL MANAGER

ANDY MOORE

Andy has 30+ years of experience. He runs day-to-day operations and field work on industrial sites, lease builds and environmental projects. He is the main contact for new work: 780-812-0714.

DIRECTOR OF INDIGENOUS RELATIONS

LARRY IRON

Larry facilitates all communication between corporate and government departments, advocating on behalf of both Canoe Lake Cree First Nation and Ôsi Energy.

LEAD OF ON-SITE OPERATIONS

TREVOR MOORE

With 18+ years of experience, Trevor handles on-site operations for Ôsi Energy. His wealth of experience is what guarantees Ôsi Energy's commitment to quality is fulfilled.

CORPORATE SAFETY OFFICER

LES MAIER

Les has 30+ years of safety experience. He runs our corporate safety program and visits sites regularly to work with crews on hazards and safe work practices.

HOW WE WORK

SAFETY, QUALITY & ENVIRONMENT

SAFETY

- Zero harm to people and the environment
- Supervisors on site
- Site-specific hazard assessments and controls
- Regular safety training and toolbox meetings
- Incident reporting and follow-up
- Corporate safety lead with 30+ years' experience

QUALITY

- Experienced managers and operators on every job
- Low turnover, so you get the same crews
- Work built to your standards and specs
- Done right the first time
- Clear communication from scope to closeout

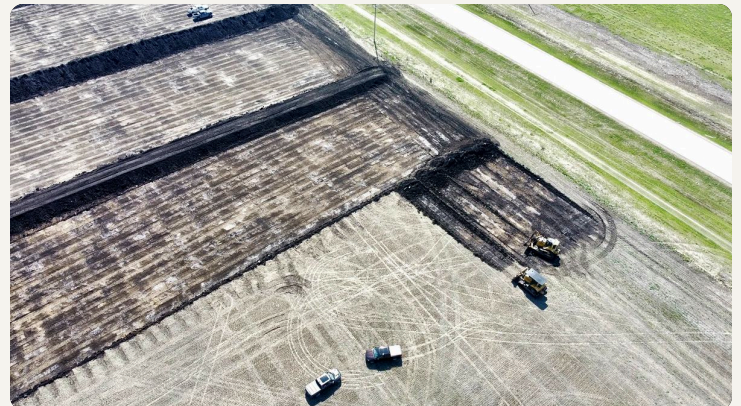

ENVIRONMENT

- Reclamation and restoration
- Cleanup and remediation
- Vegetation management and fireguards
- Compliance with environmental regulations
- Watch for traplines, cabins and trails, and keep them intact

ASKIY • THE LAND

RESPECT FOR THE LAND

We work on Treaty 10 land. For generations, Cree families here have lived by hunting, trapping and fishing, and Treaty 10 protects those rights to this day. Earthworks change the land, so we take that seriously: we disturb only what the job needs, protect the water, and leave the ground ready for whoever uses it next.

WHY CLIENTS HIRE US

WE WORK THROUGH WINTER

Winter roads, freeze-down, snow removal and remote access. We have the equipment, and our operators live in the north and know the conditions.

THE SAME CREW, START TO FINISH

Our people stay with us. The crew on your site knows the work and knows your standards, so nobody is learning on your job.

SAFE, PLANNED SITES

Every job is planned and every crew is supervised. Fewer incidents means fewer delays and lower costs. We don't cut corners to make a schedule.

READY WHEN YOU ARE

Tell us your timeline and we'll work to it. For an emergency, call our 24/7 line: **306-819-0996**.
